

Year 2 Comprehension 4: Astronaut Adventures

In a small town, there was a brave and curious young boy named Tim. He loved reading books about stars, rockets, and brave astronauts. Tim had always dreamt of going to space and exploring distant planets.

One day, Tim's dream came true when he received a special invitation to visit a real space centre.

Excitement filled his heart as he put on a shiny astronaut suit and a cool helmet. He was going to be an astronaut for a day!

At the space centre, Tim met real-life astronauts who showed him their high-tech spaceship. Tim's eyes sparkled with wonder as he climbed aboard the spaceship, the Star Voyager. He felt like a true space explorer!

He felt weightless, floating inside the spaceship like an astronaut in space.

As they travelled through the galaxy, Tim saw twinkling stars and colourful planets passing by. He even spotted a friendly alien waving at him from a distant planet!

The spaceship landed on a mysterious moon where Tim got to jump and bounce around, just like a real astronaut on the moon!

The spaceship safely returned to Earth, and Tim waved goodbye to the astronauts, thanking them for the most amazing day of his life with his heart full of joy and gratitude. As he returned home, he couldn't wait to tell his family and friends about his incredible adventure.

From that day on, Tim never stopped dreaming of becoming a real astronaut one day. He knew that with hard work, determination, and a love for space, anything was possible. And so, the brave young boy continued to reach for the stars, knowing that his own astronaut adventure was just beginning.
