

## Year 1 Comprehension 14: The Curious Case of the Missing Cookie

Once upon a time, in a cosy house, there lived a little girl named Lily. One sunny day, Lily's mom baked a batch of delicious chocolate chip cookies. Lily's mouth watered as the yummy smell filled the air.

When the cookies cooled down, Lily's mom put them on a plate. Lily promised to only eat one after dinner. But when dinner was over, Lily discovered that one cookie was missing!

Lily's eyes grew wide, and she became a little detective. She looked around the room, following tiny crumbs. She asked her dog, Max, and even her teddy bear, but they didn't know anything.

Then Lily saw a trail of chocolate on the floor. She followed it to her little brother's room. And there, she found her missing cookie! Her brother had taken it to share with his toy dinosaurs.

Lily giggled and shared her cookie with her brother and the dinosaurs. She realized that sharing was even sweeter than cookies. From that day on, Lily and her brother shared cookies and giggles together.

## Multiple Choice Questions

1. What is the story about?

- a) A missing toy
- b) A lost pet
- c) Baking a cake
- d) The missing cookie

2. Who is the main character of the story?

- a) Max
- b) Lily's mom
- c) Lily
- d) Lily's brother
