

Year 1 Comprehension 17: The Time-Travelling Toy Box

Once upon a time, there was a magical toy box in a little girl's room. This toy box wasn't an ordinary toy box – it could travel through time! The little girl's name was Emma.

One day, Emma opened the toy box and found a shiny key. She turned the key, and to her surprise, the toy box started to shake and spin. Whoosh! Suddenly, Emma found herself in a land filled with knights and castles. She was in the time of kings and queens!

Emma saw knights in shiny armour and horses trotting by. She even had a chat with a friendly dragon. After a fun adventure, she turned the key again, and whoosh! She was back in her room.

Another time, Emma opened the toy box and turned the key. This time, she landed in a world of flying cars and robots. She giggled as she saw people wearing space helmets.

Every time Emma turned the key, she went on amazing adventures to different times. From ancient forests to futuristic cities, the toy box took her on magical journeys. Emma learned that with a little imagination, even a toy box can make time-travelling dreams come true.

Multiple Choice Questions
