

Year 2 Comprehension 14: The Gigantic Plant

Once upon a time, in a small village, there was a little girl named Lily. Lily loved flowers and plants of all kinds. One sunny morning, while exploring the forest near her house, she stumbled upon a tiny seed.

Lily decided to plant the seed in her backyard. She watered it every day and sang songs to it, hoping it would grow into something magical. And magical it was! The seed sprouted into a tiny plant, and every day it grew taller and taller. But something astonishing happened. The plant didn't stop growing. It grew and grew until it was as tall as their house. Then it grew even taller, reaching up into the sky. Lily's plant had become a gigantic beanstalk!

Lily was amazed. She climbed the beanstalk, higher and higher, until she reached a colourful, cloud-covered land above the clouds. There, she met a friendly giant who had never seen a human before. They became fast friends, sharing stories and laughter.

Lily discovered that her giant friend loved to grow big plants, just like the beanstalk. Together, they planted more seeds, creating a beautiful garden in the sky. And whenever the villagers looked up, they saw the towering beanstalk and knew that magical adventures were waiting above the clouds.

From that day on, Lily and the giant tended to their sky garden, bringing joy to both the village below and the magical world above. And all of this started from a tiny seed and a lot of love and care.

Multiple Choice Questions

1. What did Lily love exploring?

- a) Caves
- b) Beaches
- c) Forests
- d) Deserts

2. What did Lily find in the forest?

- a) A magical potion
